

# Charging made simple

---

1

## Locate a station

Use the map feature on the FLO app to find a charging station near you, or search for one along your route.

2

## Park and press start

When safely parked at your desired station, tap "start" on the FLO app to activate the charger and begin your charge.

3

## Plug in the connector

Take the connector from the station holster and place it in your vehicle's charging port.

---

4

## Enjoy yourself

Once your charging session begins you can enjoy nearby amenities and let the FLO app notify you when your charge is ready.

5

## Finish your charge

When you're ready to move, remove the connector, and place it back into the station holster.

See how easy it is
